Work Experience

Accenture
Frontend Engineer

June 2021 – July 2023
Remote / Budapest, HU

- Developed highly interactive data visualization mapping applications with React, Redux, and Mapbox for a Fortune 500 Californian energy company
- Coordinated with fully remote US-based cross-functional teams, including designers and backend developers, to ensure seamless project delivery
- Utilized AWS Lambdas and API Gateway to build scalable and serverless backend architectures
- Co-created an internal React UI library using Storybook, now used by 4 teams, reducing development time and ensuring consistent UI across all projects
- Implemented unit tests for components and utility functions using Jest and React Testing Library, enhancing code reliability and maintainability
- Led the development of a role-based access control system, adopted by 2 teams, enhancing application security and user experience
- Configured Azure Devops and AWS CI/CD pipelines with Terraform
- Mentored junior colleagues and onboarded new team members, contributing to team growth and knowledge sharing

eKréta Informatikai Zrt.
Junior Frontend Engineer

August 2020 – June 2021
Budapest, HU

- Maintained and extended a large-scale Angular application used by all Hungarian educational institutions, seamlessly integrating new features and improvements
- Developed Angular 7 and 11 components using the Angular Material UI library, adhering to organizational coding standards and best practices
- Collaborated with backend developers in building .NET RESTful API endpoints

Education

University of London
Bachelor of Science, Computer Science (part-time)

2020 – Present

Skills & Interests

Languages: TypeScript/JavaScript ES6+, HTML, CSS, SQL (Postgres), Python, C++

Frameworks and Libraries: React, Next.js, Node.js, Storybook, Sass, Tailwind, Jest, Testing Library, Redux, Angular, Astro, Svelte

Developer Tools: Git, AWS (API Gateway, S3, Cloudfront), Azure DevOps, npm, Webpack, Vite, unix utilities, ESlint, Terraform

Interests: most things on hacker news, sci-fi, biotech, longevity, productivity - tools for thought
